# Qian (Joe) Wu

wuq@swufe.edu.cn % 7407342	
Employment	
Assistant Professor, School of Statistics, Southwestern University of Finance and Economics	2023.10 - present
EDUCATION	
Ph.D. Economics, University of Missouri (advisor: David M. Kaplan) M.S. Economics, University of Wisconsin-Madison B.A. Economics, University of Illinois Urbana-Champaign (minor in Statistics)	2023.7 2018.5 2015.12
FIELDS	
PRIMARY: Econometrics SECONDARY: Applied Microeconomics (Development Economics, Rural Economics)	
WORKING PAPERS	
Multiple Testing of Ordinal Stochastic Monotonicity (with David M. Kaplan) Ordinal Decomposition: Methods and Application to Mental Health Disparities Long-term Effects of the Interrupted Education System on Higher Educational Attainment	2023 2023 2020
WORK IN PROGRESS	
Bayesian Inference on Ordinal Stochastic Monotonicity Impacts of Natural Disasters on the Livelihoods Resilience and Sustainable Rural Development,	with Weite Cheng
Bayesian Inference on Ordinal Stochastic Monotonicity	with Weite Cheng
Bayesian Inference on Ordinal Stochastic Monotonicity Impacts of Natural Disasters on the Livelihoods Resilience and Sustainable Rural Development,	Fall 2017
Bayesian Inference on Ordinal Stochastic Monotonicity Impacts of Natural Disasters on the Livelihoods Resilience and Sustainable Rural Development,  ADDITIONAL RESEARCH EXPERIENCE  Research Group by Prof. Matthew Wiswall, University of Wisconsin-Madison  • Using NLSY79 data to study gender gaps in choosing STEM majors and the impacts of fa Research Group with senior Ph.D. students, University of Wisconsin-Madison	Fall 2017 mily background
Bayesian Inference on Ordinal Stochastic Monotonicity Impacts of Natural Disasters on the Livelihoods Resilience and Sustainable Rural Development,  ADDITIONAL RESEARCH EXPERIENCE  Research Group by Prof. Matthew Wiswall, University of Wisconsin-Madison  • Using NLSY79 data to study gender gaps in choosing STEM majors and the impacts of fa Research Group with senior Ph.D. students, University of Wisconsin-Madison  • Designing an experiment using Otree for studying emotions on risk and loss aversion	Fall 2017 mily background

#### **TEACHING**

Instructor, Intermediate Econometrics, SWUFE

Head TA, Principles of Macroeconomics, University of Missouri

Tutor, Economic Statistics (Undergraduate level), University of Illinois Urbana-Champaign

Fall 2015

### **SKILLS**

Technology: R, Stata, Python, Matlab, Otree, LTFX

Language: English, Chinese Mandarin

### **REFERENCES**

### David M. Kaplan (chair)

Associate Professor; Director of Doctoral Studies Department of Economics University of Missouri

■ kaplandm@missouri.edu

### Shawn Ni (PhD committee)

Middlebush Professor of Economics Department of Economics University of Missouri

▼ nix@missouri.edu

### Zack (J. Isaac) Miller (PhD committee)

Professor; Associate Chair of the Department Department of Economics University of Missouri

millerjisaac@missouri.edu

## George Chikhladze (TA supervisor)

Associate Teaching Professor Department of Economics University of Missouri

chikhladzeg@missouri.edu
